INDEX TO VOLUME V

AERODYNAMICS

See also Boundary Layer, Downwash, Electrical Potential Analyser, Secondary Flows, Vanes on Wings.

A Theory of Uniform Supersonic Flow Past a Thin Oscillating Aerofoil at Appreciable Incidence to the Main Stream, Geoffrey L. Sewell, p. 185 (September 1954).

Effects of Wire Length in Turbulence Investigations with a Hot-Wire Anemometer, F. N. Frenkiel, p. 1 (May 1954).

Estimation of the Effects of Distortion on the Longitudinal Stability of Swept Wing Aircraft at High Speeds (Sub-Critical Mach Numbers), B. S. Campion, p. 280 (November 1954).

Subsonic Compressible Flow Past Bluff Bodies, A. L. Longhorn, p. 144 (July 1954).

The Delta Wing in a Non-Uniform Supersonic Stream, G. N. Lance, p. 55 (May 1954).

The Design of Thin Finite Wings in Incompressible Flow, G. J. Hancock, p. 119 (July 1954).

Theory of an Accelerated Slender Supersonic Aerofoil, Geoffrey L. Sewell, p. 52 (May 1954).

BOUNDARY LAYER

On a Simple Method for Calculating Laminar Boundary Layers, K. E. G. Wieghardt, p. 25 (May 1954).

Some Examples of Three-Dimensional Effects in Boundary Layer Flow, J. Wilkinson, p. 73 (May 1954).

The Compressible Laminar Boundary Layer on a Yawed Infinite Wing, L. F. Crabtree, p. 85 (July 1954).

BUCKLING OF PLATES

See Structures.

CAMPION, B. S.

Estimation of the Effects of Distortion on the Longitudinal Stability of Swept Wing Aircraft at High Speeds (Sub-Critical Mach Numbers), p. 280 (November 1954).

CHILVER, A. H.

The Frequency of Failures within a Group of Similar Structures, p. 235 (November 1954).

CRABTREE, L. F.

The Compressible Laminar Boundary Layer on a Yawed Infinite Wing, p. 85 (July 1954).

DELTA WINGS

See Aerodynamics.

DIFFERENTIAL EQUATIONS

A Note on the Numerical Solution of Fourth Order Differential Equations, L. C. Woods, p. 176 (September 1954).

DISTORTION ON SWEPT WINGS

See Aerodynamics.

DOWNWASH

A Note on the Evaluation of the Supersonic Downwash Integral, B. A. Hunn, p. 111 (July 1954).

ELECTRICAL POTENTIAL ANALYSER

The Use of an Electrical Potential Analyser for the Calculation of the Pressures on Lifting Surfaces, S. C. Redshaw, p. 163 (September 1954).

FAILURE RATE

The Frequency of Failures within a Group of Similar Structures, A. H. Chilver, p. 235 (November 1954).

FLAME STABILISATION

Flame Stabilisation in High Velocity Gas Streams and the Effect of Heat Losses at Low Pressures, D. B. Spalding and B. S. Tall, p. 195 (September 1954).

FRENKIEL, F. N.

Effects of Wire Length in Turbulence Investigations with a Hot-Wire Anemometer, p. 1 (May 1954).

GORGUI, M. A.

The Effect of Delta Vanes on Supersonic Wings, p. 251 (November 1954).

HANCOCK, G. J.

The Design of Thin Finite Wings in Incompressible Flow, p. 119 (July 1954).

HOT-WIRE ANEMOMETER

See Aerodynamics.

HUNN, B. A.

A Note on the Evaluation of the Supersonic Downwash Integral, p. 111 (July 1954).

LANCE, G. N.

The Delta Wing in a Non-Uniform Supersonic Stream, p. 55 (May 1954).

LONGHORN, A. L.
Subsonic Compressible Flow Past Bluff Bodies, p. 144 (July 1954).

OSCILLATING AEROFOIL
See Aerodynamics.

PALMER, P. J.
The Natural Frequency of Vibration of Curved Rectangular Plates, p. 101 (July 1954).

PRESTON, J. H.
A Simple Approach to the Theory of Secondary Flows, p. 218 (September 1954).

REDSHAW, S. C.
The Use of an Electrical Potential Analyser for the Calculation of the Pressures on Lifting Surfaces, p. 163 (September 1954).

SECONDARY FLOWS
A Simple Approach to the Theory of Secondary Flows, J. H. Preston, p. 218 (September 1954).

SEWELL, GEOFFREY L.
A Theory of Uniform Supersonic Flow Past a Thin Oscillating Aerofoil at Appreciable Incidence to the Main Stream, p. 185 (September 1954).
Theory of an Accelerated Slender Supersonic Aerofoil, p. 52 (May 1954).

SPALDING, D. B. and B. S. TALL
Flame Stabilisation in High Velocity Gas Streams and the Effect of Heat Losses at Low Pressures, p. 195 (September 1954).

STABILITY
See Aerodynamics.

STRUCTURES
See also Failure Rate.
Buckling of Oblique Plates with Clamped Edges under Uniform Shear, W. H. Wittrick, p. 39 (May 1954).
Symmetrical Buckling of Right-Angled Isosceles Triangular Plates, W. H. Wittrick, p. 131 (July 1954).
The Natural Frequency of Vibration of Curved Rectangular Plates, P. J. Palmer, p. 101 (July 1954).

TALL, B. S. and D. B. SPALDING
Flame Stabilisation in High Velocity Gas Streams and the Effect of Heat Losses at Low Pressures, p. 195 (September 1954).

VANES ON WINGS
The Effect of Delta Vanes on Supersonic Wings, M. A. Gorgui, p. 251 (November 1954).

WIEGHARDT, K. E. G.
On a Simple Method for Calculating Laminar Boundary Layers, p. 25 (May 1954).

WILKINSON, J.
Some Examples of Three-Dimensional Effects in Boundary Layer Flow, p. 73 (May 1954).

WITTRICK, W. H.
Buckling of Oblique Plates with Clamped Edges under Uniform Shear, p. 39 (May 1954).
Symmetrical Buckling of Right-Angled Isosceles Triangular Plates, p. 131 (July 1954).

WOODS, L. C.
A Note on the Numerical Solution of Fourth Order Differential Equations, p. 176 (September 1954).
